WHY FIRMS CHOOSE SE FORENSIC

- ✓ Licensed Professional Engineers, Ph.D.s, and ACTAR-accredited reconstructionists on staff
- ✓ Objective, methodology-driven analysis that withstands courtroom scrutiny
- ✓ In-house 3D laser scanning, drone mapping, and EDR / black-box imaging
- ✓ Rapid mobilization to preserve evidence before it disappears
- ✓ Free initial consultation on every matter

"We translate physical evidence into clear, defensible conclusions our clients can stand behind — from the first call at the scene to testimony on the stand."

WHAT WE DO

Forensic disciplines under one roof

We offer consulting services across accident reconstruction, forensic engineering, transportation engineering, failure analysis, and safety consulting.
